

Car Parking

There are no bookable car parking spaces at the White Cross Neighbourhood Centre for trainers or delegates. There is one car park that is free for use, located in between the Neighbourhood Centre and the White Cross pub but this fills up very early in the morning – usually by at least 08:00.

The rest of the White Cross Industrial Estate is monitored by ANPR cameras and any vehicle on site for more than 20 minutes will receive a fine (the above-mentioned car park is not included in this). There are signs around the estate asking visitors to register for a permit, but these do not apply to visitors to the White Cross Neighbourhood Centre and no permits can be provided.

There is some street parking around the local area but we ask anyone parking there to be mindful of residents. Below is a map of pay & display car parks close to the Neighbourhood Centre.

We are around a 15-to-20-minute walk from Lancaster Train station, and the closest bus stops are the Common Garden Street, George Street, and Infirmary stops.

Lancaster also operates a Park and Ride bus; it is located on the M6 J34 Slip road offering an ideal location to those travelling to Lancaster to park outside the City Centre and finish their journey by bus.

Sat Nav Postcode – LA2 9HG

Trainers can use our Lower Ground delivery/loading bay to load and unload equipment on arrival and when they leave, but will need to find alternative parking throughout the day.
